Small Talk.

From the Round Table

Of all drawing room accomplishments, small talk is not only the most necessary, but, while seemingly so easy of acquisition, is in resilty, smong the most difficult. The most necessary, because, however a man may excuse binned from sloging, or danting or playing the page, or acting in charades, or whiching worst die can scarcely avoid talking in society, and unless he be able to converse finently in the dialect which society has made its own, he is apt to be set down for a dummy or a bore—a sufficiently un piecasul alternative. Its difficulty becomes, on slight reflection, equally appeared. To talk really well about anything is no ordinary achieve ment, but to talk really well about nothing requires infinitely greater act. It is a initial to suppose that aimning excel in small talk, in this, as in every other accomplishment, brains are sure quires infantely greater art. It is a unstake to suppose that ainnies excel in small talk, in this as in very other accomplishment, brains are sure sooner or later to tell. Of course, they must not obtrade but hidden, like the manager of a pupper show, must have on the inlind of the grail lied harer a certain vague suggestion of near ness and unflatince which she would find it impossible to smally excellent the kernen unallying some thin most women possess. We use the framine pronoun advisedly for of course it is only between men and women that small talk excellent in the production of possess. We use the framine pronoun advisedly for of course it is only between men and women that small talk excellent in the production of possess. We use the framine pronoun advisedly for of course it is only between men and women that small talk excellent in the more accurate to say only in the mouth of a han talking to a woman. Women in their intercourse with one another use something which nearly resumbles, but which is not, small talk. The essence of small talk in the filling, and though the subjects which were discussed in the subjects which were discussed in the printing, indeed, yet from correlations in portune. Dettills of dress and fashion the shade, of a ribt on, the turn of a liar become matters of very scrious moment when we reflect how greatly they influence the end which every proper initial, lift sets for her self as the one great aim of existence—the attiment of a desirable partia. He at one gathered them and brought thesis to the Virgis Mary, who threw them into his silma and said, "Go back again to the Bishop, and unfolding his silms to show him these credentials Richop, and unfolding his silms to show him the poses, there appeared imprinted upon it the maryelous image of the Virgin. The Bishop was awe struck, processions and masses were had in honor of the event, a large new cathedral was erected to the Jory of the Virgin, and thousands from every part of the country flocked thither. A natural spring, time tened by Iron, was found on a side of the hill, and over it a chapel was erected, and marvelous remedial properties attributed to its waters—Every year the day of appartition has been cele and over it a chapet was acceed, any many continued all properties attributed to its waters—Every year the day of apparation—has been cede braced and the church has, of course, been caried of thereby. That the mirrach was convenient to the city, that its most immediate fruit was a new church, and that thappared at the time when it was necessary to convert the Indian by supernatural means, are facts which have not massed the eyes of the critical. Carlonely enough, the Cathedral of Our Lady stands where once stood the temple of Tonantaln, the blund holim Ceres, whose sacrifices were doves. The modern divently counts her bundreds of thousands of simple abject hopeful believers, but whether her linumerable professors in two mide the poor children one whit betterfthan theywere two landred years ago is a question over which some long faces bashed their heads. Washington, Jan. 28.

Mr. Porham introduced a bill providing for bounty to widows and children of three months and hise months volunteers who were killed or died in the service. Also providing that when a soldier entitled to bounty his died while his application is pending, and prior to date of the certificate, his beirs or 'egal representatives shall be entitled to receive it. Referred to the Committee on Isaking and Currency, from the Committee on Banking and Currency, from the Committee on Banking and Currency, reported a bill in relation to taking the shares of intitional banks. It provides that the words "place where bank is located and not elsewhere" in section 31 of national currency set of June 3, 1864, shall be construed and held to mean that the State within which the bank is located, and the Legislature of each State may determine and direct the manner and place of taxing all shares of mational banks located white in such states, subject to the restriction that the transition shall be observed and involved in our beautiful in such States, and provided always that the shares of national nauks owned by noticed capital in such States, and provided always that the shares of national nauks owned by noticed capital in such States, and provided always that the shares of national nauks owned by noticed capital in such States, and provided always that the shares of national nauks owned by noticed capital in such States, and provided always that the shares of national calcal, and not sheewher. The bill was explained by Mr. Pomeroy, from the same committee, re-

litision.

Mr. Pomercy, from the same committee, resorted back the bill introduced by Mr. Bandall pregulate deposits of public money. It provides, that a national bank shall not be colucted and the same of the property of the same is hocated the Treasurer or Assistant Treasurer in the United Spit s; that all public moneys colected and received for the Government in any seal city or piace shall be deposited with the Treasurer or Assistant Treasurer and shall be subject to the druk of the Secretary of the Treasurer of the United States, as provided by law, and under such regulations as the Secretary of the Treasury from time to time shall deem expedient and shall establish, and any united affect demositing unitie money otherwise.

After some debate Mr. Pomeroy remarked that as the House seemed to be maximously in favor of the principle, he thought too bill should be made more stringent. He therefore noved amendment applying the provisions to at collectors of piblic moneys within tity miles of a city where there is a Treasurer or Assistant reaster of the United States. The amendment was agreed to and the bill as amended passed without division.

An Executive communication from the President in reference to the formal transfer of Russian-America to the United States was referred in the Committee on Foreign Affairs. Arather Manufacturers' Convention. The deliberations of the Manufacturers' Conrention at Worcester, Mass., on the 22d last., managed as it was of practical men in nearly att another of industrial enterprise, are well worthy the attention of Congress and the people. The controlling spirit of the Convention seems to have been Hon. William Gray, of Boston, who, in the capacity of chairman, delivered a suggestive practical and timely address, touching upon all the questions that relate to the security of the public revenues and the revival of all branches of product revenues and the vision along the product industry in their order, laying down broad grounds for the Government policy and advocating rigid retrenchment as the first, last and perpetual role in administering the public finances Ille address took numistakeable ground for the full and fair payment of the public debt, for economy in administration, for high qualification in our public officers, for the prevention of fraud and corruption, and for a lightening of public taxes. In his view, the income tax may be abated after another year, and but one hundred miltions be collected from internal revenue taxes one hundred and fifty millions being received from customs. On this basis of two hundred and fifty millions of dollars a year, in his judgment, the current expenses of the Government can be met. As for paying off the debt, that work, he thinks, may await its turn; we must dret make sure of being able to pay the interest, with current expenses. The problem to solve is how to revive the manufacturing industry, and, to that end, it is easentful that the resources of the coun-iry should be developed. The entire proceedings were characterized by

practical good sense, all policies or theories of doubting whedem being ignored. In fact, the Convention only saked a repeal of the untilpli-city of petty imports and the discharge of a lef spice and collectors which they engander The following comparison of the internal reven men of Great Britlan and the United States wil throw some light on the subject, a due allowance for the depreciation of our currency having been

SECOND CONCERT OF THE OLD FOLKS.-- If the New Tear concest of Father Azariali's Old Folk was a success, that of last evening was equally so An lumenst audience was as-embled and whi the performances were all characterized with more spirit than on the first occusion, they received with constant approbation, which is some instances amounted almost to enthusiasu This may have been attributable in part to the fact that the acoustic properties of the half bave been munifically improved by covering the aper ture for the sky light in front of the stage; and secondly, to an increase of confidence on the part of the singers. Yet, the hall is at best ex ectdingly defective in respect to vocal perfor manicus of any kind. It was only when the sing ers were massed near the foot lights that their parts were rendered in such a magner as to hrow the volume of sound outward, for at other times it was painfully apparent that the company inhored under a great disadvantage. Added to and formy that it required a courtoous apology from Father Azariah to the gas company to en thic him to read his pealm book without difficul-

Many correspondents through the public journate of the day are getting very clamorous, and are universally free to express their meies in relation to the late Benninghoff robbery. Ala every ane who has heard of the affeir, and the irenmitaneus connected with it, rather seems disposed to condemn Mr. Benninghoff for his peculiarities, and his way of managing his own in a way that best pleased himself. Others have entertained the idea that he had no business to have so much money, and having it, ought to be robbed for letting it remain in his house—and it was wood enough for him-and they feel very sorry that the perpetrators of one of the highest crimes known to the law, disgulard as they were, evolvers in hand, did not make a clean sweep (the thing and ge, all the money that was in the Others, a little more liberal in their views, have a desire that these midnight ruffiem may be caught and have justice meted out to them, that the anjesty of the law may be windle cated, but at the same time have a deare for the interests.) They do hope that the \$250,000 will get luto circulation and out of the possession of the robbers before they are caught, so that Mr Beaninghoff will not be able to get his money back, and some good may result from the evi done. Strange idea-singular logic. Ferhaps it would be a great blessing to the country to make a business of committing crimes when so much good results therefrom. But r rob a few more safes and get the money in circulation, so that good will result from evil It appears, however, that all are not of the

same opinion; they do not "see it" in the same Now if Mr Benninghoff has been success ful in business and has made money honestly no one denies, is it not his and his he not the right to owa, it where he pleases, and to use ien he leels disposed. Two Concests, By, Blind Ton -By reference to an advertisament is our columns, this more jug, it will be seen that this "musical phenome non" is to give two concerts in Corinthian Hall on Thursday and Friday evenings of the present week. "Blind Tom," now about 18 years of age, was purchased, with his mother, when a merc infant, by Perry H. Oliver, a tobacco planter, in Southern Georgia, in 1850. Charity only could inte induced him to take the thin, shapeless immp of black flesh, born blind, with the vacangrin of ideocy, as all parties believed, alrendy stamped on his face. When seven years of age (he was allowed free access over the house, and was the children's pet), the family were astonish ed one summer's day by the hearing of beauti fat harmonies from the fimily drawing reom Tom' had been left askep in the portice, and awaking had wandered to the pinno, and this was his first touch, playing in an ecstacy of de-light, clapping his hands, kicking, his beels and shouling during the intervals. In 1858 Mr. Oil ver started on his first concert trip with his prodigs, commencing at Savana th, and was en cressini. A RAILROAD ENTERGAINING ITS PASSENGERS -The cassengers on the Buffido, Corry & Pitts burgh Rulrond, going east, were delayed by snow in one of the deep cuts, about six 'miles from Brutton, from 9 o'ctock on Friday morning until 8 o'clock in the evening. While thus do thined, Dinlet Williams, E-q, one of the direct tors of the road came up with a number of skilelis and conveyed the passengers to Brocton, where: sumptoons dinner was served up at the Conpuny's expense. In the afternoon the passenger were conveyed to the establi-brients of the Lake Shore Wine Company where they were shown through the extensive works and handsomely

intertained by G. E. Ryckman of that Company After full justice had been done to the hosp alities extended, a meeting of the presengers was rganized O. W Johnson, of Fredonia was President, and A. H.
